Beach Safety Flags

- Red & yellow flags mark the areas of water that are patrolled by lifeguards. This is the safest area to swim.
- Black and white chequered flags are marked out for use by craft (such as surfboards & kayaks). It is not safe to swim in this area.
- The red flag flying alone signifies danger. Never go in the water when the red flag is flying.

CAUTION
Beaches shown are indicative only as sea levels constantly change. Users should always consult tide tables and local warnings.
